Aubrey O’Day Isn't The Only Starlet Associated With Eminem

By MTV News Staff
By Kathy Iandoli

These days when Danity Kane alum Aubrey O’Day “sleeps on it,” she has visions of Slim Shady in her sweet dreams.

The singer turned Broadway star and now reality show maven opened up about her 8 Mile fetish to Popdust.com while premiering her new show “All About Aubrey” on Oxygen!

“I constantly keep having sex dreams with

eminem/artist.jhtml">Eminem in a bathtub,” the former Playboy pin-up girl revealed. Per Aubrey, it wasn’t just one dream of Eminem. There have been multiple fantasies.

Eminem’s entry into mainstream stardom began with songs like “Kim,” a nightmare discussing Em’s tumultuous relationship with the mother of his child (Kim), ultimately leading to him stuffing her into a trunk and dumping her in the river with his daughter Hailie at his side. Surely, a lothario like Eminem would have many women swoon.

In the past, Eminem has been linked to stars like

carey_mariah/artist.jhtml">Mariah Carey, which resulted in a series of diss tracks between he and Nick Cannon, along with Carey’s hit single “Obsessed.” He was also rumored to have a crush on Britney Spears, which evolved into making fun of her in a few videos, most recently “We Made You” off his album Relapse. Another rumor suggested Eminem was interested in

rihanna/artist.jhtml">Rihanna, and while the two never became an item they made beautiful music together on the Alex Da Kid produced track “Love the Way You Lie.”

Miley Cyrus has opened up about having a crush on Eminem herself. The actress slash singer disclosed her crush in 2009, referring to Em as a “genius” and a “living legend” ever since she heard his song “Stan.”

Who knows what will become of Aubrey O’Day’s infatuation with Mr. Mathers. Having already been linked to the likes of Jesse McCartney, Donnie Wahlberg and even Diddy (never confirmed), perhaps O’Day’s newest prey will be captured.

No word yet on Eminem’s reaction to the Danity crush. This could either end in a new relationship or a new hit single.
